

TYPE Q-F 大型鐵箱電阻 **BREAKING RESISTORS & LOAD BANKS**

25KW~1000KW BOX
Dimensions (mm)

Style: C
Cane Metal Cover

Style: V
Ventilated Cover

Style: E
Enclosed Cover

Attention :

1. LMEM resistor can be used under 100% full load, but please install cooling fan to prevent from overheating while operating continuously long time.
2. To get more detail of cooling fan's dimension、voltage、phase and HZ, please contact us.

Product Characteristics :

- Resistance Range : 0.1Ω~1000KΩ
- Resistance Tolerance : ±10%(K)(±0.5%、1%、5% is available)
- Allowable temp. rise : up to 375°C
- Dielectric Strength : AC1500V / 1 min (3500V, 4500V, 6000V is available)
- Temp. Coefficient : 260ppm/°C
- Insulation Resistance : 20MΩ min

Others available :

1. Indoor and outdoor type
2. Non-inductive type
3. Space heater with thermostat
4. Cooling fan with heat dissipation
